Subject: Don't Let Microsoft Off the Hook

Dear Judge,

The facts against Microsoft are clear. Judge Jackson was correct, as was the appeals court, in determining Microsoft to have violated antitrust law. They will continue to do so unless a severe punishment is enacted. Please don't let them off the hook once again.

Windows XP and their .NET initiative are both flagrant examples of their continued search for ways to maintain their illegal monopoly of the computer marketplace, and both of these initiatives came AFTER they had been found guilty of violating antitrust laws by earlier actions. Clearly, they have not learned their lesson, and the Government's proposed settlement is not sufficient to reign them in.

Regards,
A concerned citizen
